

Liaisons between the CTMS Workspace and other Workspaces have been created as specific communication needs have arisen. In many cases the Workspace has taken advantage of the opportunity presented by Centers that are funded in both Workspaces, and in other cases the activity is simply a component of participation in one of the Workspaces. Some of the liaisons participate extensively in both groups, while others contribute on an as-needed basis. The CTMS Workspace does much of its work within SIGs (which meet separately), and in many cases the liaison needs exist for a specific SIG rather than across the entire Workspace. The list below is intended to include members who have served in some liaison capacity between CTMS and the listed Workspace.

<b>Workspace/Working Group</b>	<b>Liaison(s)</b>
Integrative Cancer Research (ICR)	David Fenstermacher (Penn)
Tissue Banking and Pathology Tools (TBPT)	John Speakman (MSKCC)
Architecture	Frank Manion (FCC); Derek Walker (Hutch); Tahsin Kurc (Ohio State); Jim Harrison (UPMC); Warren Kibbe (Northwestern); Lara Fournier (OHSU)
Vocabularies and Common Data Elements (VCDE)	Margaret Haber (NCI); John Carpenter (Mayo); Cecil Lynch (UC-Davis)
Data Sharing and Intellectual Capital (DSIC)	Don Connelly (Minnesota)
Strategic Planning	Joyce Niland (City of Hope)
Training	Tom Cassavant (Iowa); Terry Braun (Iowa)
